Editor's Notes

I have to say, I didn't do anything much as far as conventions go. I had to hold off going to spring and summer conventions. As I mentioned in my post on Facebook, this issue is delayed. The reason for this is that I, spent a couple weeks in San Francisco in the middle of May, when I was supposed to start production for this issue. I was there for my daughter's university events and graduation. Now, I'm recovering, not being to do anything for a minute for now.

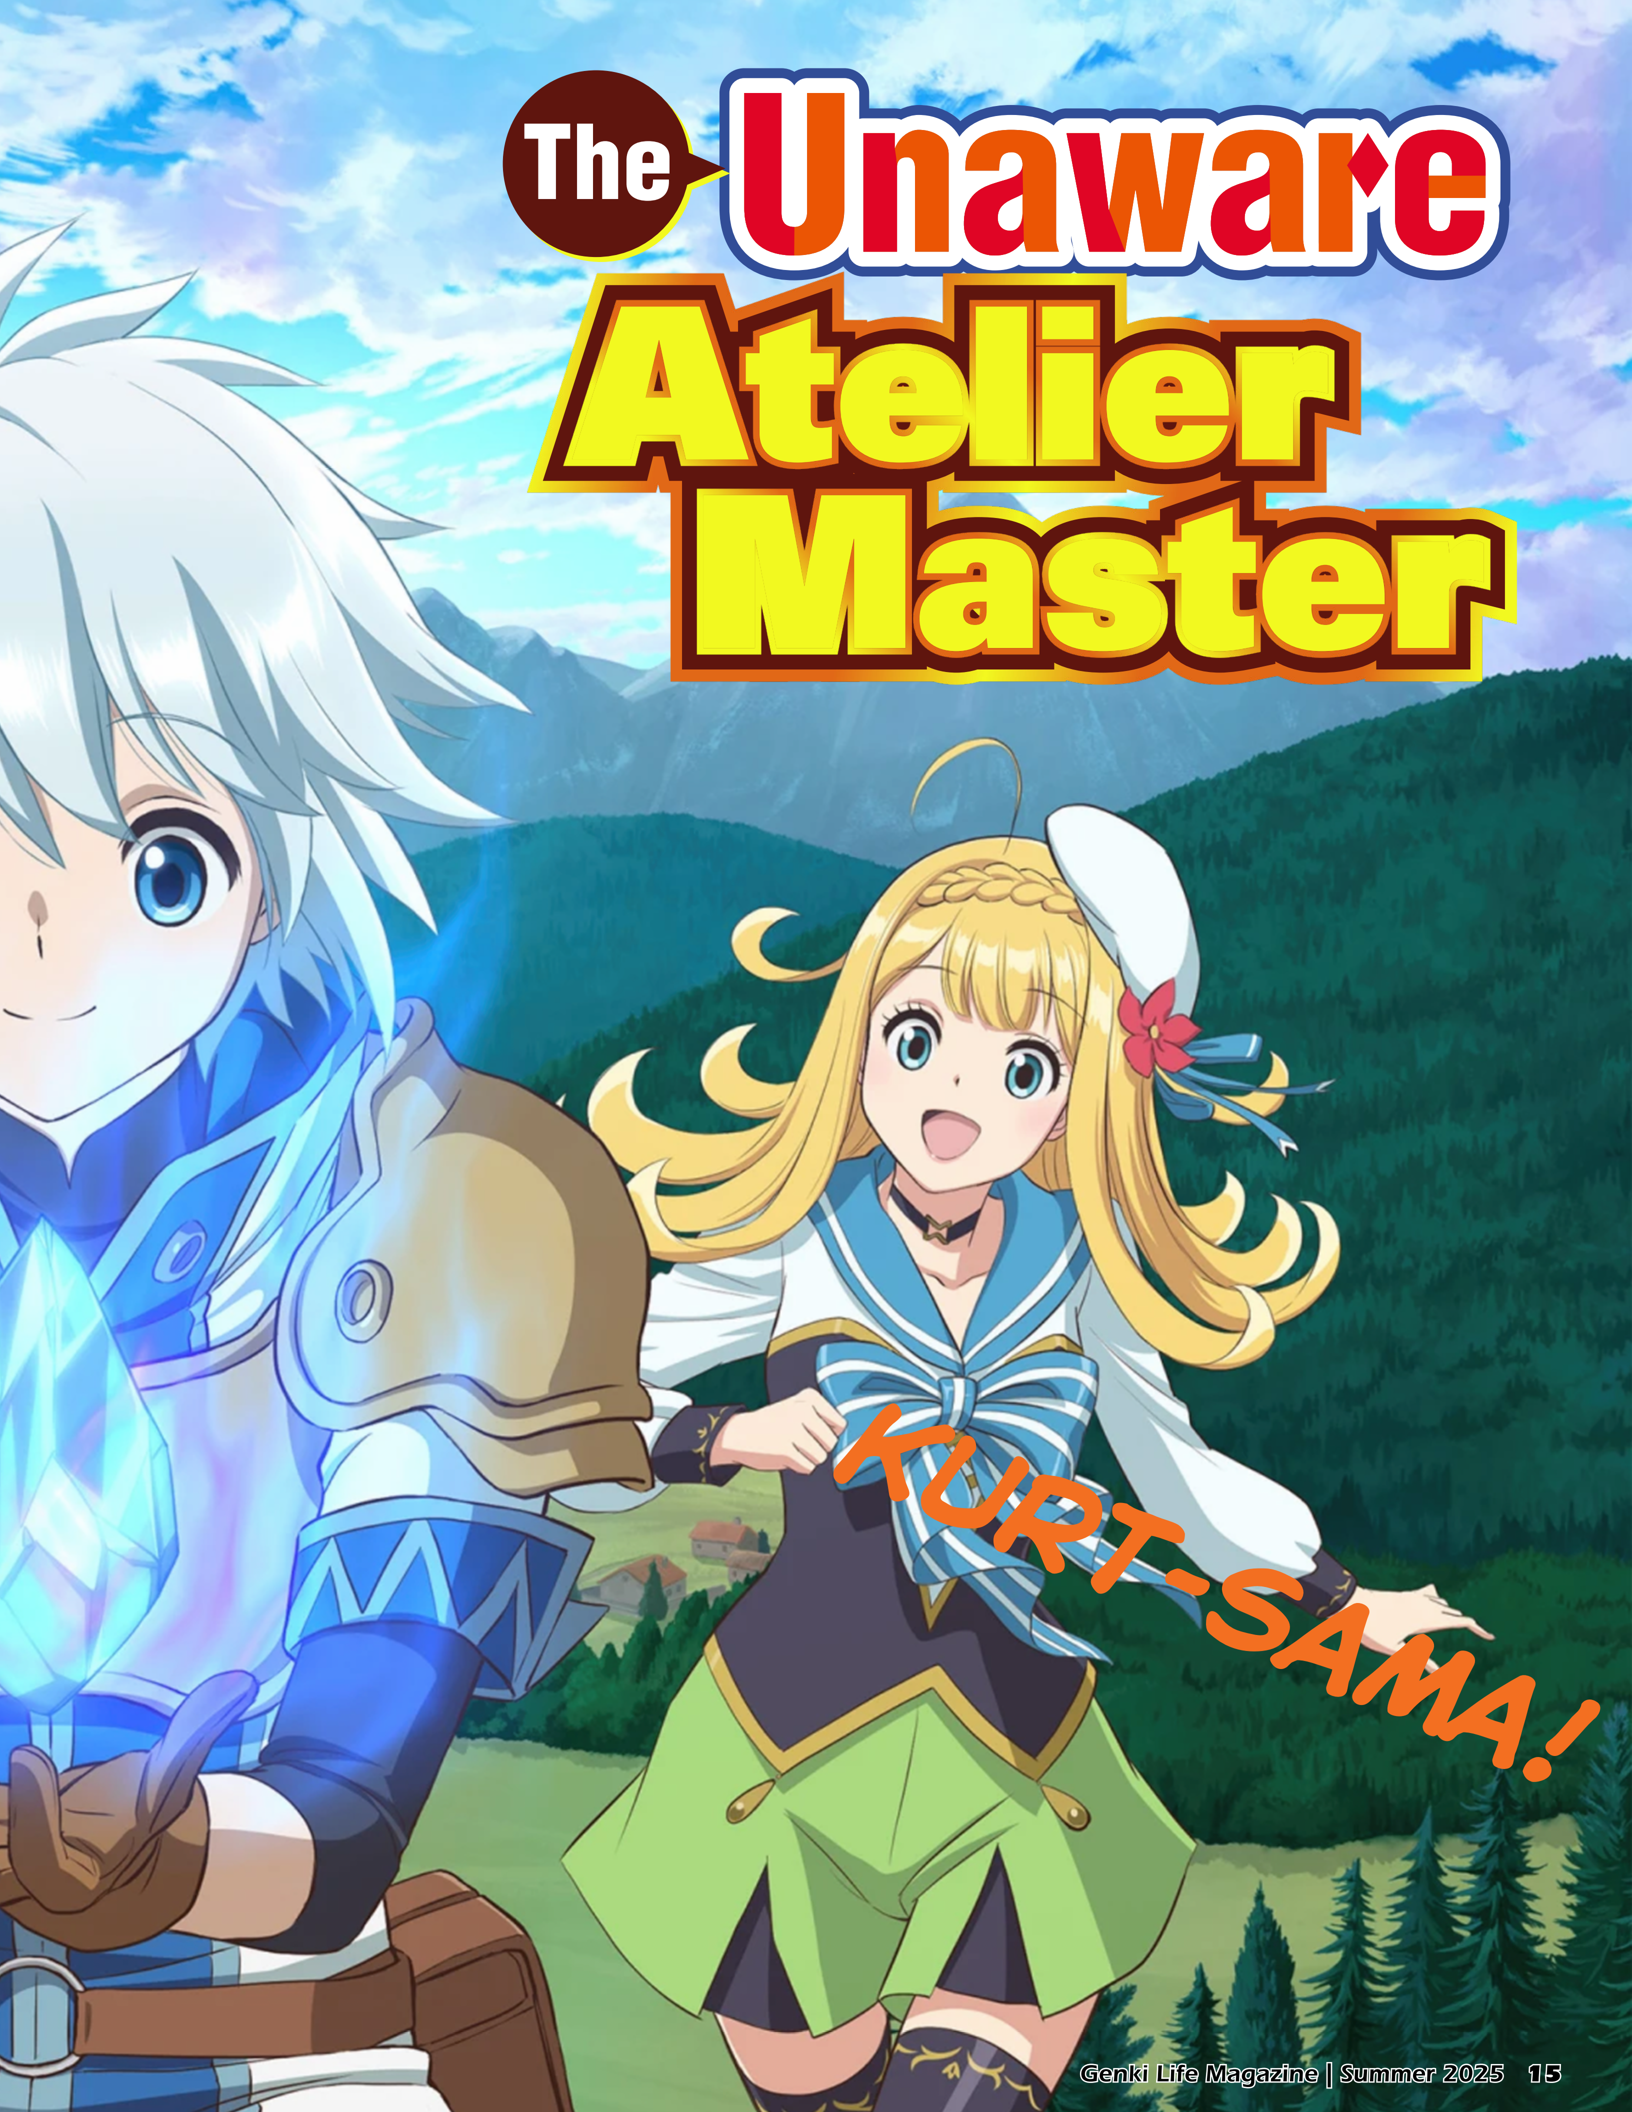
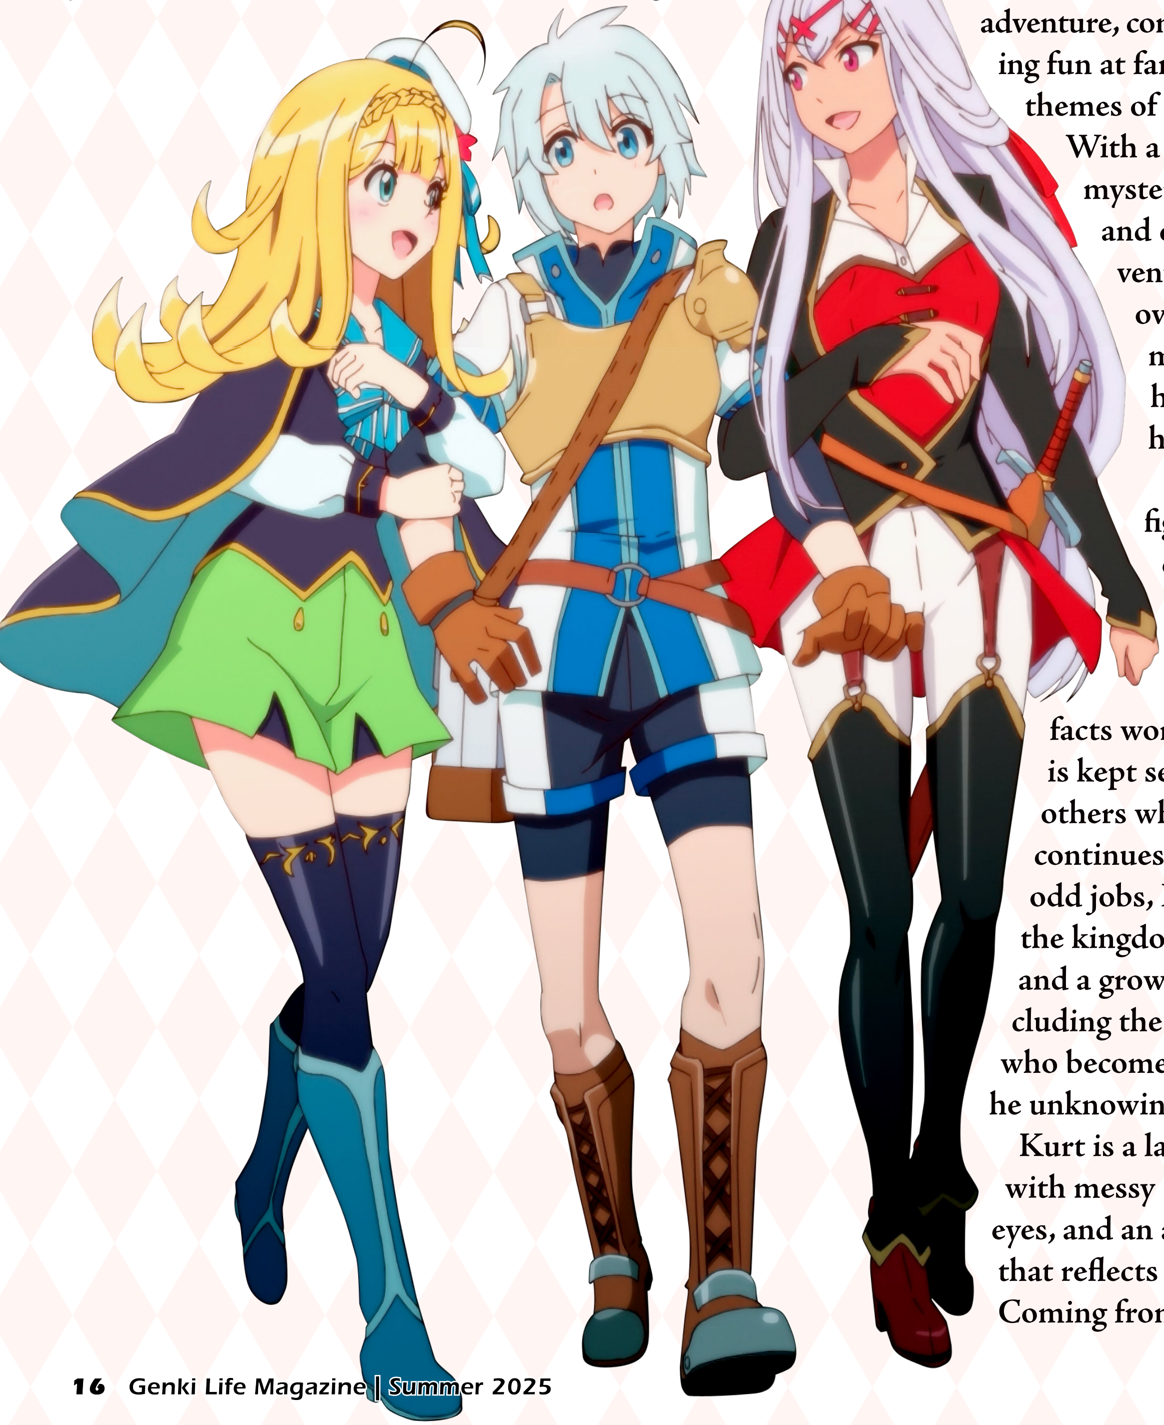
The Unaware Atelier Master



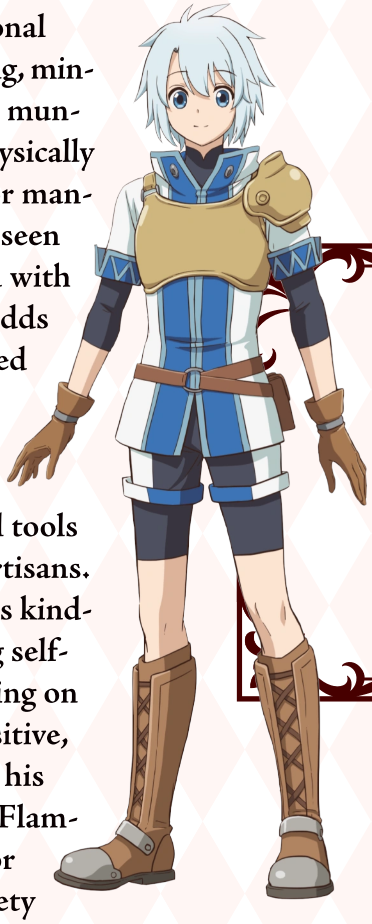
The first time I heard about *Kanchigai no Atelier Meister: Eiyū Party no Moto Zatsuyōgakari ga, Jitsu wa Sentō Igai ga SSS-Rank Datta to Iu Yoku Aru Hanashi* (*Kanchigai no Atelier Meister* from here on) was through one of those AI storytelling Youtube Channels half a year ago. This channel was retelling the manga version, interpreted by AI. Although the retelling was a bit off, I did understand and enjoyed the substance of the story. Originally started off as a light novel by Yōsuke Tokino, it was adapted into a manga and is currently airing (spring 2025) as an anime.

Kanchigai no Atelier Meister follows Kurt Rockhans, a kind-hearted 15-year-old who serves as a jack-of-all-trades for the renowned Flaming Dragon Fang adventuring party. Deemed "useless" due to his low combat skills, Kurt is abruptly kicked out of his adventure party, and left to fend for himself. Unbeknownst to him, Kurt possesses extraordinary SSS-rank abilities in non-combat skills like cooking, building, mining, and crafting magical tools. Kurt considers his skills ordinary because they're common skills in the remote village where he came from, however quickly draws attention as he takes on odd jobs to survive, inadvertently saving people and transforming towns with his remarkable efficiency and magical aura. Plagued by naivety and low self-esteem, Kurt remains oblivious to his own brilliance, setting the stage for a comedic, yet heartfelt journey of self-discovery. The series blends adventure, comedy, and light romance, poking fun at fantasy tropes while exploring themes of self-worth and found family. With a colorful cast, including a mysterious illusionary figurehead and quirky allies, Kurt's misadventures highlight the power of overlooked talents, as his former party crumbles without his vital support, cementing his status as an unsung legend.



Recruited by high-ranking figures like Yulishia, an ex-royal court adventurer, and Princess Liselotte Homuros, Kurt is appointed as the Atelier Meister of a magical artifacts workshop, though his true role is kept secret to protect him from others who could exploit him. As he continues going out and about doing odd jobs, Kurt's actions ripple through the kingdom, earning him admiration and a growing circle of companions, including the curse-afflicted Liselotte, who becomes infatuated with him after he unknowingly lifts her curse.

Kurt is a lanky, unassuming teenager with messy silvery-blue hair, bright blue eyes, and an always positive expression that reflects his innocence of the world. Coming from a remote village where extraordinary non-combat skills are the norm, Kurt is unaware of his own exceptional SSS-rank abilities in cooking, crafting, mining, and building, which he views as mundane due to his upbringing. Kurt physically looks like an average that's suited for manual labor rather than combat, often seen in simple workman's clothes stained with dirt or soot from his latest project adds to his workman-look. His unpolished appearance and clumsy demeanor makes him easy to underestimate, yet his hands are remarkably agile, capable of creating intricate magical tools or delicious meals that rival most artisans.

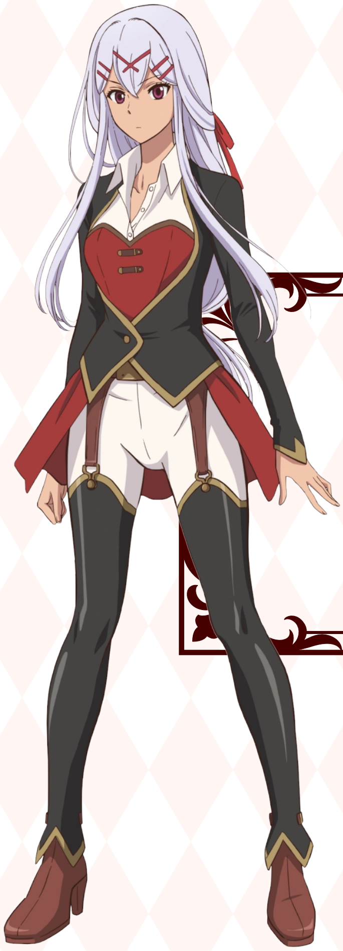


Kurt Rockhans

CV: Komatsu, Mikako

A boy who works as a chore at the hero party "Flame Dragon Fang," but is kicked out because he has no aptitude for combat. In fact, all aptitude ranks other than combat are all SSS, an unconventional, super genius, but he himself is unaware of this and mistakes it for a "common story."

Kurt's personality is defined by his kind-heartedness, humility, and crippling self-doubt. He's relentlessly helpful, taking on any task with a cheerful can-do, positive, attitude, driven by a desire to prove his worth after being kicked out of the Flaming Dragon Fang adventure party for being perceived as useless. His naivety and clumsiness leads to numerous comedic misunderstandings, as he remains oblivious to the impact of his skills or the romantic interest from characters like Liselotte... and eventually Yulishia. Despite his low self-esteem, Kurt is resilient, taking on challenges with a mix of determination and creative problem-solving, often improvising solutions that leave others stunned. Kurt had a strong sense of loyalty to his newfound friends and his unwavering optimism grants him a magnetic presence.

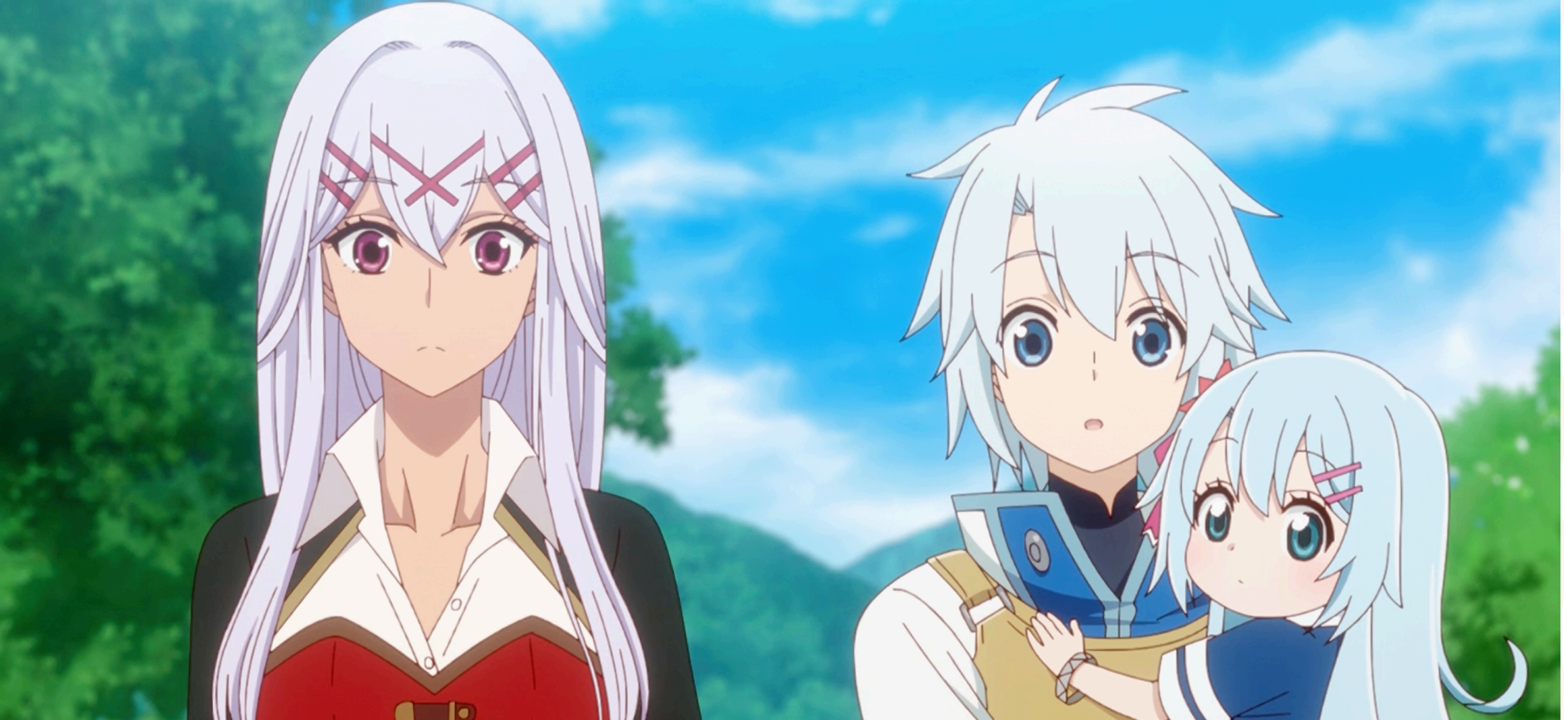


Yulishia

CV: Seto, Asami

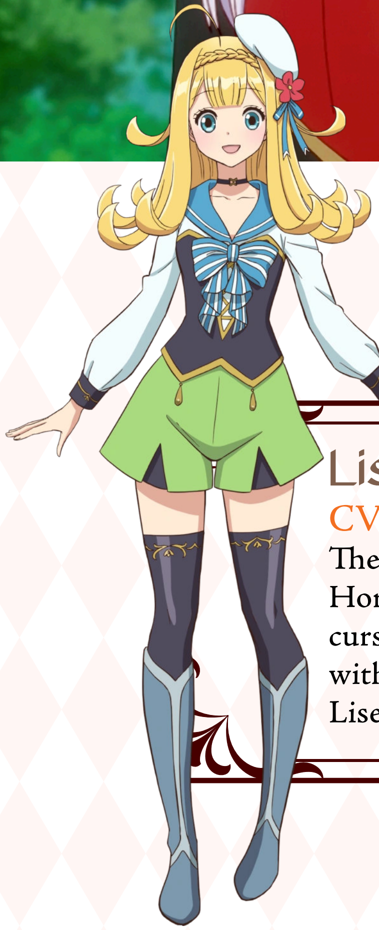
A former adventurer under the direct control of the royal family. Because he is a sensible person, he is constantly at the mercy of Kurt's misunderstandings. A hard worker who stands up to protect Kurt.

The two other main characters that Kurt is frequently seen with are Liselotte Homuros and Yulishia. Princess Liselotte, third in line for the throne, is a dignified, yet emotionally guarded 16-year-old with long, flowing blonde hair and piercing blue eyes that hint at her royal lineage. Initially skeptical of Kurt's abilities, she becomes a key ally and romantic interest after he unknowingly alleviates her mysterious curse through his magical crafting. Liselotte's personality



blends tsundere traits—sharp-tongued and prideful—with vulnerability, as she gradually softens around Kurt, admiring his selflessness while struggling to express her growing feelings. Her determination to protect Kurt and her kingdom drives her to take bold risks, making her a spirited force in the story.

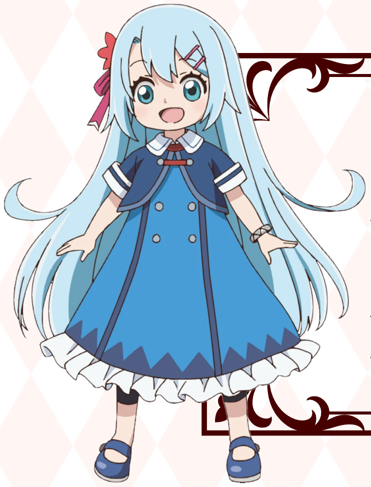
Yulishia is a brilliant and cunning ex-royal court adventurer in her early twenties, known for her striking silver hair, red eyes, and mischievous smile that masks her sharp intellect. She recognizes Kurt's extraordinary talents early on when she initially recruits Kurt at



Liselotte Homuros

CV: Tanaka, Minami

The third princess of the Kingdom of Homuros. Her life is threatened and she is cursed with a deadly curse. She is in love with Kurt, who cured her. Her nickname is Lise. Her full name is Liselotte Homuros.



Akuri

CV: Kakuma, Ai

A mysterious little girl born from an egg received as a reward for completing a quest. She has looked about three years old since birth, and looks just like Kurt. She calls Kurt "Papa" and Eurice and Liselotte "Mama."

the Adventurer's Guild. She becomes the main orchestrator of Kurt's role behind the scenes to safeguard his potential in becoming the Atelier Meister. Yulishia is charismatic, confident, and slightly manipulative, often teasing Kurt to boost his confidence while keeping his true abilities hidden from those who might exploit him. Beneath her playful exterior lies fierce loyalty to the royal family and a protective streak toward Kurt, whom she views as a valuable asset. Her strategic mind and magical prowess make her a vital mentor and ally in Kurt's journey. She becomes Liselotte's love rival.

Kanchigai no Atelier Meister has a mix of appreciation for its heartwarming and comedic elements, alongside criticism for its reliance on familiar tropes and lack of narrative depth. Fans generally find the series charming and enjoyable for its lighthearted, feel-good premise, often comparing it to shows like *Kami-tachi ni Hirowareta Otoko* and *Slime Taoshite 300-nen, Shiranai Uchi ni Max Level ni Nattemashita* due to its focus on an unassuming, overpowered protagonist. Kurt's kind-hearted, naive personality and the comedic misunderstandings stemming from his obliviousness to his SSS-rank abilities are frequently cited as highlights to the wholesome humor and relaxing vibe.

Kanchigai no Atelier Meister also has its shortcomings, some describing it as a typical fantasy anime that leans heavily on over tertiary tropes like the "useless hero who's secretly overpowered" or the "kicked from the party" setup. Some viewers find the premise repetitive, lacking originality, and the pacing slow, with weak dialogue and a lack of narrative weight. Others also feel that the show's reliance on cliched fantasy elements, like the pseudo-harem dynamic, makes it feel formulaic…like many other fantasy stories that have become popular. Overall, while fans enjoy *Kanchigai no Atelier Meister's* cozy, predictable nature, many agree it's not groundbreaking, appealing more to those who enjoy light, trope-heavy fantasy with endearing characters. ❖ ICSSC

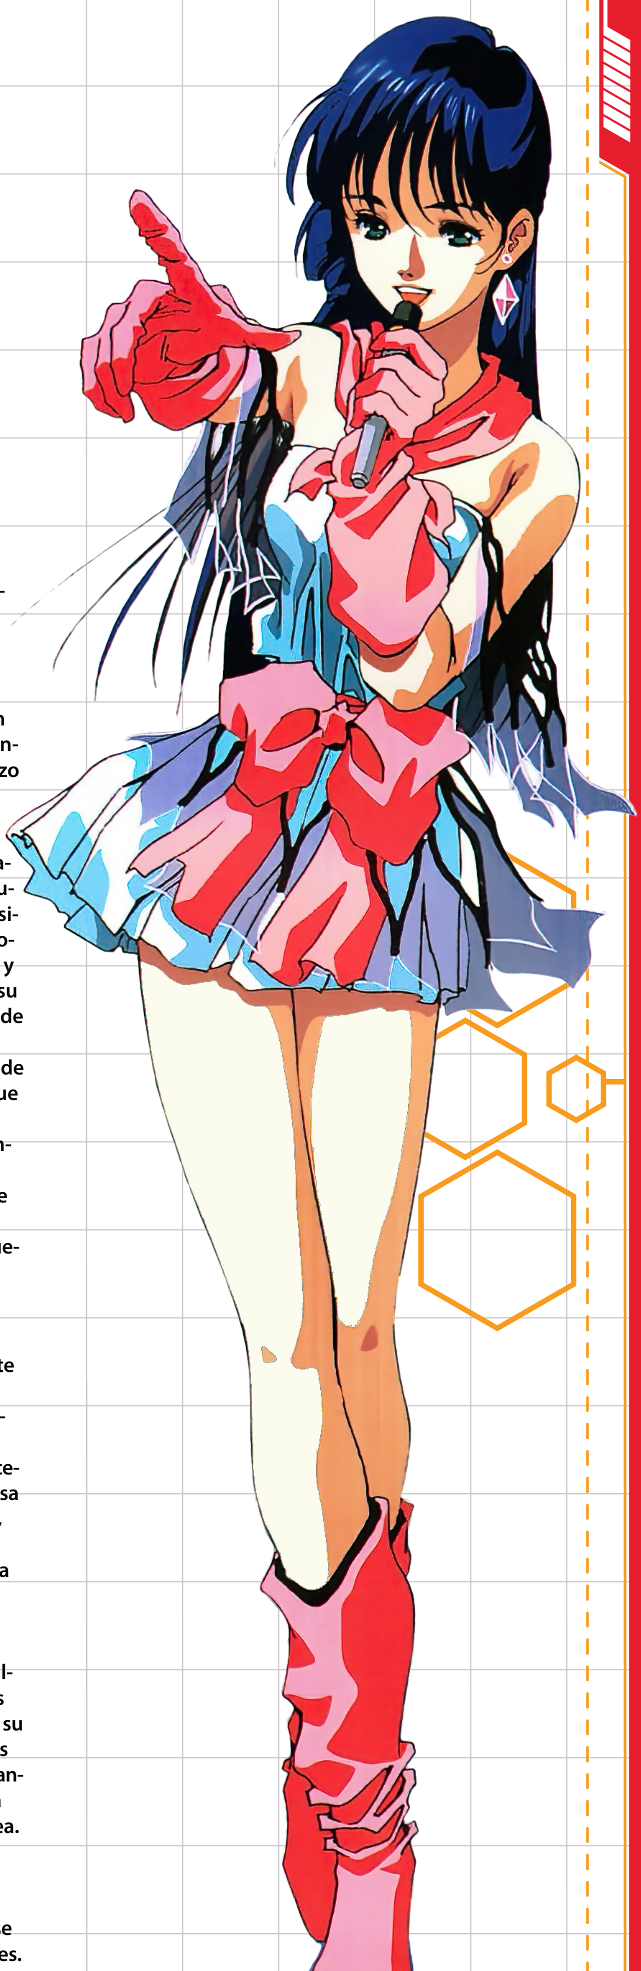
超時空要塞 マクロス
MACROSS
愛・おぼえていますか

Lynn Minmay



The legendary songstress, Lynn Minmay. Originally, she dreamed of becoming a singer, but her parents strongly opposed her dream, so she practically ran away from home. She was taken to Macross as a refugee like many other ordinary citizens, and with the support of her older brother Lynn Kaifun, she continued to study singing and dancing, and finally made her long-awaited debut as a singer on board the Macross starship.

At the time of her first concert, she had already become one of the most popular talents on board, starring in a TV drama. During a battle at the Fast Concert, she meets the Joint Forces pilot Ichijō Hikaru, and is attracted to his broad-minded personality and kindness, to the point where she falls in love with him. He was later captured by the Zentradi army, during which he learned of the existence of "Mezone" (an ancient Proto-Cultural song which became the prototype for "Do You Remember Love?") which they possessed. Ultimately, Minmay's voice singing the song awakened a culture that had been sleeping deep within the Zentradi's genes, encouraging them to join forces with humanity. And thus brought an end to the interstellar war.

Minmay was taken prisoner by the Zentradi army, but when she accidentally hummed a song, it piqued the interest of Commander-in-Chief Gol Bodolzer, which led to her returning to Macross as an emissary of peace with humanity. She is reunited with Ichijō Hikaru, who she had been in love with since her imprisonment, but he is already in a relationship with Misa Hayase, and when Minmay discovers their relationship, she is deeply saddened. Furthermore, when he finds out that Misa has deciphered the lost lyrics of a Protoculture song entrusted to him by Bodolzer, he emotionally refuses to sing the song, "Do You Remember Love?" Minmay's absence becomes known to Bodolzer, and the peace is eventually broken, beginning a three-way battle with the Zentradi and Meltrandi. The pain of her broken heart and the overwhelming military might of the titans make Minmay despair, but when Hikaru scolds her, she realizes that she was being swept away by momentary emotion. She returns to her true self as a singer and sings "Do You Remember Love?," a song that also contains Misa's feelings. The song reached the hearts of the giants and became a bridge between humans and giants.

*Macross Chronicle: 30th Anniversary, Volume 3: Character Sheet

La legendaria cantante, Lynn Minmay. Originalmente, ella soñaba con convertirse en cantante, pero sus padres se opusieron fuertemente a su sueño, por lo que prácticamente se escapó de casa. Fue llevada a Macross como refugiada como muchos otros ciudadanos comunes y con el apoyo de su hermano mayor Lynn Kaifun, continuó estudiando canto y baile, y finalmente hizo su esperado debut como cantante a bordo del barco Macross.

En el momento de su primer concierto, ya se había convertido en uno de los talentos más populares a bordo, protagonizando un drama televisivo. Durante una batalla en el Fast Concert, conoce al piloto de Fuerzas Conjuntas Ichijō Hikaru, y se siente atraída por su personalidad amplia y su amabilidad, hasta el punto en que se enamora de él. Más tarde fue capturado por el ejército Zentradi, durante el cual se enteró de la existencia de "Mezone" (una antigua canción Protoculture que se convirtió en el prototipo de "¿Recuerdas el amor?") que poseían. Finalmente, la voz de Minmay cantando la canción despertó una cultura que había estado durmiendo en lo profundo de los genes de los Zentradi, alentándolos a unir fuerzas con la humanidad. Y así puso fin a la guerra interestelar.

Minmay fue tomada prisionera por el ejército Zentradi, pero cuando accidentalmente tarareó una canción, despertó el interés del Comandante en Jefe Gol Bodolzer, lo que la llevó a regresar a Macross como emisaria de la paz con la humanidad. Ella se reencuentra con Ichijō Hikaru, de quien había estado enamorada desde su encarcelamiento, pero él ya está en una relación con Misa Hayase, y cuando Minmay descubre su relación, se entristece profundamente. Además, cuando descubre que Misa ha descifrado la letra perdida de una canción de la Protoculture que le confió Bodolzer, se niega emocionalmente a cantar la canción, "¿Recuerdas el amor?" La ausencia de Minmay llega a manos de Bodolzer, y la paz finalmente se rompe, comenzando una batalla a tres bandas con los Zentradi y Meltrandi. El dolor de su corazón roto y el abrumador poder militar de los titanes hacen que Minmay se desespere, pero cuando Hikaru la regaña, se da cuenta de que estaba siendo arrastrada por una emoción momentánea. Ella regresa a su verdadero yo como cantante y canta "¿Recuerdas el amor?", una canción que también contiene los sentimientos de Misa. La canción llegó a los corazones de los gigantes y se convirtió en un puente entre humanos y gigantes.

Arliette Sama Profile

Profil de Arilette Sama

Soy Arliette Sama, vivo en Santiago de Chile y me dedico al cosplay porque amo la animación y soy una apasionada de la costura.

Todo comenzó con el deseo de demostrarle a mi madre que sabía coser…y bueno, aquí sigo, transformando esa motivación en una pasión que ha crecido con los años.

Elegí a Lynn Minmay porque fue la primera idol que conocí y me fascinó desde el primer momento. Desde el día uno en el cosplay, supe que algún día haría un homenaje a ella, y hoy ese sueño es realidad.

Este es solo el comienzo: pronto se viene más contenido inspirado en Minmay. ✨

I'm Arliette Sama, based in Santiago, Chile, and I'm into cosplay because I love animation and I'm absolutely obsessed with sewing.

It all started with a desire to prove to my mom that I could sew…and well, here I am, still going strong—turning that motivation into a full-on passion over the years.

I chose Lynn Minmay because she was the first idol I ever knew, and I've loved her from the very beginning. Since day one in cosplay, I knew that someday I'd bring her to life—and now that dream has come true.

And this is just the beginning: more Minmay content is coming soon. ✨

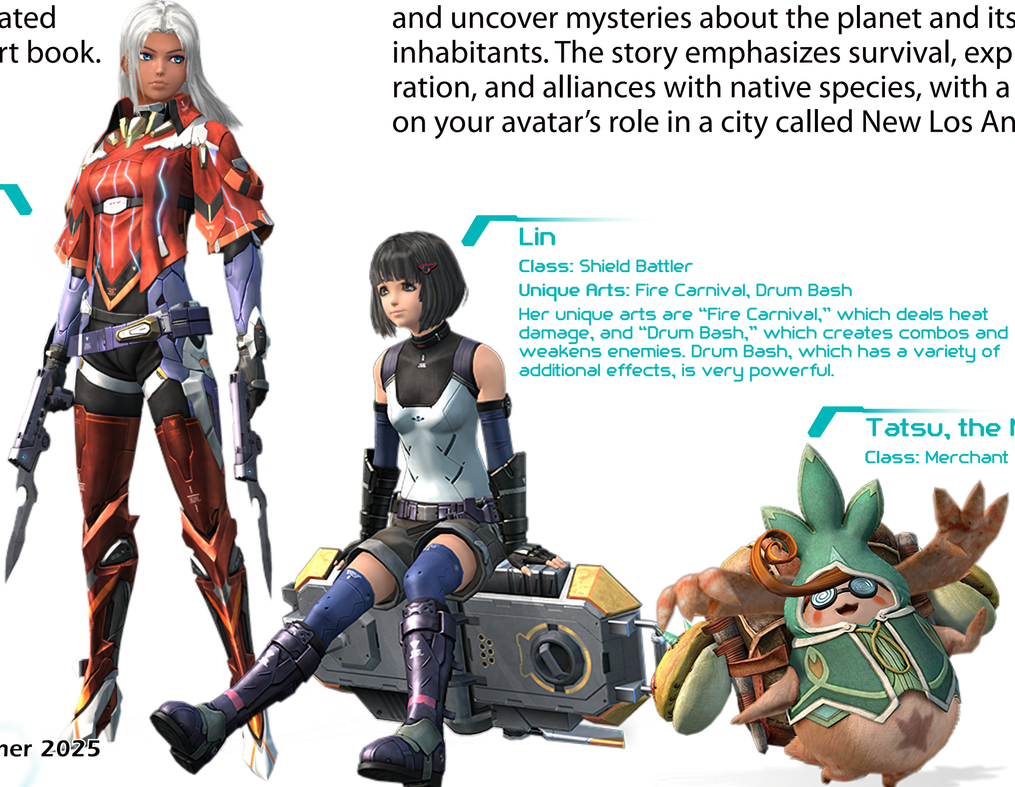
Xenoblade X
Definitive Edition
ゼノブレイドクロス ディフィニティブエディション

Intro & Story

Xenoblade Chronicle X was one of those game that I overlooked as an old-school mecha fan. Then again, I never owned a Wii-U. I've forgotten it over time. Around the time *Xenblade Chronicles: The Definitive Edition* came about, I wanted to know more about its history. That when I was reintroduced to *Xenoblade Chronicle X*. The "X" in the title is referred to as "cross," translated from the original Japanese art book.

Xenoblade Chronicles X follows humanity's remaining survivors fleeing Earth after an alien invasion destroys it in 2054. You play as a survivor on the interstellar colony ship White Whale, which crash-lands on the uncharted planet Mira. As a member of BLADE, an organization tasked with rebuilding society, you explore Mira's vast open world, fight hostile creatures, and uncover mysteries about the planet and its alien inhabitants. The story emphasizes survival, exploration, and alliances with native species, with a focus on your avatar's role in a city called New Los Angeles.



Elma

Class: Full Metal Jaguar

Unique Arts: Shadow Strike, Ghost Stage

Elma's unique arts are "Shadow Strike," which has a breaking effect, and "Ghost Stage," which gives evasive abilities to surrounding allies. By increasing the level of the arts, you can increase the duration of the buffs and weak rest effects.

Lin

Class: Shield Battler

Unique Arts: Fire Carnival, Drum Bash

Her unique arts are "Fire Carnival," which deals heat damage, and "Drum Bash," which creates combos and weakens enemies. Drum Bash, which has a variety of additional effects, is very powerful.

Tatsu, the Nopon

Class: Merchant

Gameplay

This game excels in actual gameplay. You start off creating your avatar: name, gender, hair, eyes, a plethora of physical traits you can customize. After the lengthy avatar creation process, immediately, you jump right into the story. If you played the original game, you will notice immediately that the graphics, textures and sounds from the original version have been updated. The graphics are sharper and brighter, upscaled for a higher resolution screen. Even the soundtrack had been resampled to provide cleaner, crisper sound.

The exploration in this game is just top-notch. The game map is absolutely massive for a game of this caliber. There are different continents you can explore that have different environments, flora, indigens (monsters), and weather patterns. In each segment of the map there are always things to do. There are tyrants to fight, data probes to set up, treasure to be found, alien wreckage or pieces of the White Whale to discover, hidden caves to explore, and so on. With all these things to do, which is part of your main objective, is to connect all these places in order for your surviving colony to prosper. At this point in my gameplay, I'm haven't unlocked the usage of Skells…those giant robots, although the original Japanese version of the game calls them "Dolls." Upon obtaining Skells, it opens up the map even more for exploration, discovering new things, obtaining more powerful weapons and fighting higher level indigens.

You can see the indigens' level that appear as different colors indicating how dangerous they are. The colors are: white, you can take them on at your current level; yellow, you have a good chances of succeeding; and red, run! They also have sensing icons indicating how they attack you sights sound or both. These indicators help you to avoid them or not. As you level up, this changes. Previously yellow level will now change to white. Red level indigens become yellow. Lower level indigens or enemies will now ignore your whether or not they have the sight or hearing icons.

Missions

In order to level up your avatar you have to take on missions, although you'll spend much of the game exploring Mira. Missions consists of jobs and requests often from general populace, from other BLADE members or via Mission Control. The types of mission in order of importance are story, affinity, normal and basic.

As you complete a Story Mission, you'll have a new missions that will appear for your party to do. Completion of Story Missions lets you advance to a new chapter in this story. They are accepted at BLADE Barracks. Affinity Missions are missions that are more involved. They include rescue missions, searching for people, forming relationship with the people and at the end of the mission additional characters will join your party. In some cases you have to complete the city mission before you can continue other missions. Normal Missions are often from civilian citizens or fellow BLADE members. They include tutorials, going to places on the map, searching for things, etc. Basic missions are similar to normal missions but they're simpler tasks including hunting down monsters, gathering materials or testing new weapons. Aside from these mission, there are hart-to-harts. These are not mission, but important by improving relationships with you party members or with the citizens of New Los Angeles.

Combat

You can either use a firearm or a blade weapon. Your avatar automatically attack with the chosen weapon, but all weapons have a cooldown period when it can be used again. The player also has access to weapon arts, special attack moves that significantly do more damages. These weapons arts also have a cooldown period also indicated by the weapon arts icons on the arts dock along the bottom of the screen. After you use a weapon art, it goes dark, but fills up indicated by the clockwise bar. Other than weapon arts, there are also other specialized arts that could be added to the dock for use in combat. Your avatar continues attacking automatically when you're not using weapon arts. Also during combat, your teammates in your party Will often tell you to do other moves like Malay attacks, shooting different parts of your enemy, another special moves that have to do with your arts. This is called a soul challenge. An icon appears on the screen which is a time challenge to press a button on your controller. If the challenge is successful, the morale of your party increases. Very very satisfied satisfying so much fun set your system down.

Final Thoughts

Although I haven't play the original version of this game which came out over 10 years ago in the Wii-U, from what I learned, it had a lot of technical issues. Some of these are inconsistent frame rates, slow loading and graphical problems, but almost all of these problems were resolved in this iteration. The character models were updated in this game to match closely with the previous *Xenoblade* video games. Even with the updated character graphics and looking better, characters you interact with still don't show any facial expressions and still have deadpan faces. All the other graphics have been improved and sharpened in this definitive addition, resulting in some breathtaking environments and landscapes. One difference of this game compared to previous *Xenoblade* games is the soundtrack includes vocals tracks. The music style is more contemporary compared to the orchestral soundtrack of the previous games. For the voice acting, I haven't played the English language version…only the Japanese voice acting which I have been playing up to now. So I can't say whether or not the English voice acting is good, but I still prefer the Japanese voice acting, with English subtitles. As for the English subtitles, I find with my limited knowledge of Japanese, that some of the translations were not always accurate. It's probably so that the voice could fit the lip movements? Up to now I have not completed the game and only up to Chapter 5. Each time your avatar levels up, there will be new missions to do, learn more skills and more stuff open up in the game. There is so much to do that would be overwhelming, even I haven't read through all the tutorials because there's just so much. I'm probably missing a lot of other things even after putting over 70 hours into this game up to this point and I still haven't unlocked access to macha, the Skells. There's so much in this game that I only have scratch the surface. ❖ Ed Gomez

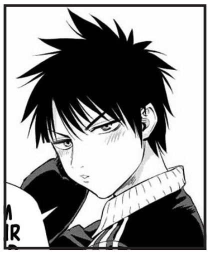
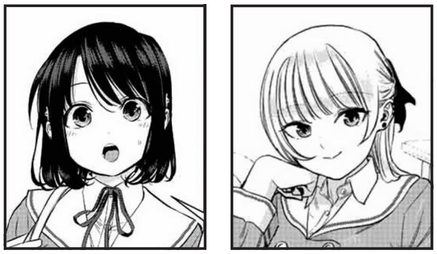
SHONEN MAGAZINE COMICS



Sakai, Yonosuke

The main male, high school student, prtagonist. His childhood friends call him "Eyū."



Minamo, Shio & Hiodoshi, Akari

They are the childhood friends of Yonosuke as well as fellow classmates. They are also the main love interests of the first two volumes.

Osananajimi to wa Romcom ni Naranai

by Misu, Shinya

Yonosuke "Eyū" Sakai's problem is his two childhood friends, Shio and Akari. They're just too cute! Now in high school, the three are interested in each other, but can't bring themselves to say "I like you" any more. If they find out that Eyū is looking at the two "grown-ups" with dirty eyes, even though they don't feel the same way, it would be too bad! On the other hand, Shio and Akari actually have something going on.

All the heroines are childhood friends!! Frustrating! Complicated!! But childhood friends are the best!!! They've found themselves in a frustrating and complicated love triangle! Will this finally become a romantic comedy?

Here's a preview of the first two chapters. Be sure to support the author.

These pages are meant to read in spreads, side by side.

The story flow will be off, if read page by individual page.
